

# Connegt-IT

Managed IT Services

**Local & Innovative**

## ABOUT CONNEQT IT

With nearly 20 years delivering client focused IT Support, our services are aimed at providing a trusted technology partner to help you maintain and support your IT infrastructure.

We're driven by a passion to make a difference to our customers, staff, and the communities where we live, by helping bring out the best in people and technology.

***We are not rock stars, ninjas, or any other disingenuous buzz term, we are professionals.***

## IT SUPPORT / MANAGEMENT

Whether you need a company to take over your IT operations or need specialized services to augment your existing IT capabilities, the team at Connegt IT can help you get the most out of your IT investment.

From password resets to full site backups and replication, we have your network covered.

# ICT CONSULTING

Technology is changing at a fast pace, so when it comes to the IT in your business, you're bound to experience bumps in the road. From slow systems to security and data breaches, IT needs attention.

## And that's where we come in...

We'll work towards your priorities, including getting you back up and running needed. But more importantly, We'll work with you to improve your systems and processes to ensure your environment is optimal at all times.

# OVERCOME A TECH ROADBLOCK

It could be you've hit a tech roadblock and you need some expert advice. Or you want to find a better way of working and are looking for IT solutions. Chances are, we can find the answer that will make ICT work for your business.

## WHY CHOOSE MANAGED SERVICES FOR 2022 ?

### **24,7 Advanced Performance Monitoring**

Ensures all the critical network devices that comprise your network are healthy and functioning reliably and optimally.

### **Scheduled Preventative Maintenance**

Ensures that your Servers, PCs, and other network devices function optimally. This improves reliability and security.

### **Security Management**

Properly designed and implemented Anti-Virus and Anti-Malware solutions to keep your business protected.

### **Patch Management**

Ensures all your Windows servers and PCs or Apple Devices have the most up-to-date security and system patches, helping to optimise performance and minimize security risk.
